

PHLEBOTOMY

Phlebotomists work hand in hand with highly trained medical staff to assist patients in need. This may be your ideal career path if you want to play a role in healthcare. This certificate program provides students with 100 hours of classroom and 100 successful venipunctures in clinical and laboratory components. Classroom and clinical instructions are located at Vantage Career Center and local healthcare laboratories. During our career training program, you will be allowed to learn how to draw blood from individuals. The student will also learn the processing and distribution of laboratory specimens. Also, during the program, you will learn safety standards, quality control procedures, and ethical, legal, and regulatory matters.

Admission

- ✓ Must be 18 years of age or a student who is at least 17 years old, Provided that the student has graduated or is enrolled in the 12th or final grade in a secondary school program
