

## How to get teacher notifications to your smartphone

Download the Vantage Career Center app to your smartphone. You will be asked to opt into the overall High School notifications. If you have a teacher with a notification group, you can opt into that as well.

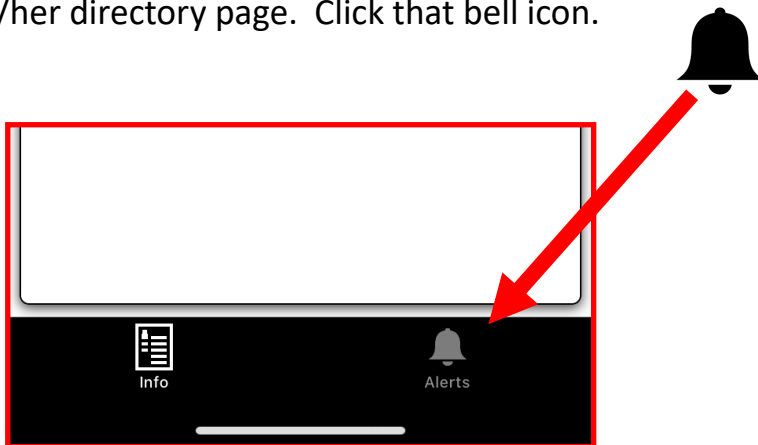

1. Click Directory.

2. Choose the All Instructors drop down.

3. If your instructor has notification groups set up, there will be a bell icon at the bottom of his/her directory page. Click that bell icon.

4. Click the slider next to the eyeball icon to opt in to getting that teacher's notification to your smartphone.
